

Sustainability Leadership

Sustainability is embedded in MTI’s core values and is integrated into our corporate governance and organizational structures. Our Environmental, Social and Governance (ESG) strategy has always been a focus at the highest levels of company leadership. We know that ESG is paramount to successful business outcomes, and it is also central to our discussions within the Board of Directors at MTI.

2025 Environmental Targets

Meaningful Progress in Year 2

MTI’s environmental targets demonstrate our commitment to transparency, promoting innovative opportunities to improve performance, enhancing our ability to manage risks, and providing insight into our management of those areas that matter most to our stakeholders and business. Our goals also serve as a guide for our businesses and locations to embed sustainability into their day-to-day operations and measure their progress. We established these targets in 2018 and have publicly reported our progress in the subsequent years.

We are on track to meet or exceed all targets and have implemented company-wide projects that will drive significant improvements in the years ahead.

Progress to Achieve Targets Since 2018

Targets established from 2018 baseline and year 2 performance references 2020 calendar year.
