Our FHLB advances are collateralized by assets, including a blanket pledge of certain loans. Of the FHLB borrowings outstanding as of December 31, 2021, $150.0 million were short-term borrowings maturing within one year and $30.0 million were long term borrowings maturing after five years. As of December 31, 2021 and 2020, we had $798.8 million and $1.247 billion, respectively, in unused and available advances from the FHLB. The decrease in our total borrowing capacity from December 31, 2020 to December 31, 2021 was primarily the result of decreased outstanding loan balances at the end of 2021 including a decrease in outstanding mortgage warehouse loans held for investment.

Paycheck Protection Program Liquidity Facility ("PPPLF")

The PPPLF is a lending facility offered by the Federal Reserve Banks to facilitate lending to small businesses under the Paycheck Protection Program. Borrowings under the PPPLF are secured by Paycheck Protection Program Loans ("PPP loans") guaranteed by the Small Business Administration ("SBA") and mature at the same time as the PPP Loan pledged to secure the extension of credit. The maturity dates of the borrowings will be accelerated if the underlying PPP Loan goes into default and Company sells the PPP Loan to the SBA to realize on the SBA guarantee or if the Company receives any loan forgiveness reimbursement from the SBA for the underlying PPP Loan.
